POLITICAL EDUCATION OFFICER

A little over forty years ago there arose in the heart of Europe a political movement that was to shake the entire world. That movement was founded by a German Lance-Corporal who returned from the front to find a very sick Europe. This mere German Corporal was one of the greatest men to walk the earth in twenty centuries. With his great wisdom and insight he recognized the nature of this disease which had engulfed Europe. To attack this disease he developed a political system of such naturalness and simple brilliance that it will endure as long as the white man walks this earth.

That German Lance-Corporal was Adolph Hitler, and his movement was National Socialism.

This pamphlet is prepared for new converts to National Socialism so they can better understand its inner beauty, and deflect the ideological attacks of its enemies. Following you will find a list of questions which will help you understand National Socialism. Each question will be followed by an answer so the student can know the exact position the great American NAZI Party holds on each question. The student need not know every answer word for word, but he should, before his acceptance into the movement, know the substance of each answer.

Questions and Answers

Why are we nationalists?

We believe that one of the functions of a man is to have pride in, and protect his home and tribe. We do not however, believe in a narrow nationalism which pits German against Frenchman or Englishman against Italian, etc. The white man can no longer afford the luxury of self annihilation.

Why are we socialists?

We believe that no man is entitled to be a parasite who exists on the sweat of others. In a National Socialist state each individual must contribute to society whether he contributes manual labor, managerial ability, or risks his capital. We believe that free enterprise is essential to a healthy state, and a man is entitled to the fruits of his contributions. In this we differ from the Marxists. They use the banner of social justice to conceal the chains they have forged for the proletariat.

How do we differ from the Marxist socialists?

The main difference between the ideologies are that the Communists do not recognize race, are against private ownership, and do not recognize individual genius. National Socialism recognizes that the races are greatly dissimilar, and that the Aryan race is the only truly creative race. National Socialists recognize that free enterprise is necessary for a happy and healthy

people. We also recognize that great deeds have never been accomplished by a mass, but only by individuals. Nature requires, nay begs, for great leaders to direct humanity.

Why do we believe in struggle?

Struggle is an elemental part of nature. Without struggle civilizations wither and die. To remain young and virile, civilizations must be watered by blood and tears. Moreover, in struggle, the weak fall to the wayside and the natural elite arises.

Why are we against democracy?

Democracy denies responsibility by spreading it. Democracy is rule by mobs, and mob rule means rule by the mediocre. The mob never recognizes greatness in a leader, in fact they are repelled by it.

What form of Government do we believe in?

We believe in an Authoritarian Republic as the founders of this country intended. This means a natural leader selected by an electoral college composed of the elite of the nation. This elite, of course, will be chosen by popular vote. Once this leader is given a mandate he accepts full responsibility for his actions as President.

Why are we against Liberalism?

Liberalism is a doctrine of weakness and effeminacy. Liberals are sympathetic to Communism, and they aid and abet it.

Why are we organized along military lines?

The Nazi Party has no aggressive intentions. The vicious nature of the enemy makes strong defensive measures required. Therefore we are organized along paramilitary lines with uniforms. Uniforms also give a feeling of solidarity.

Do we favor dictatorship?

Absolutely not! We believe that no man can successfully play God. One man alone can not direct a complex modern state, but one man must assume responsibility for government.

Why are we "against" Jews?

We are only against Jews who have committed treason to this country or the White Race or who have condoned or concealed it. The Communist movement is and has always been directed by international Jewry. Zionism is also treason, because it makes the Zionist loyal to a foreign power. When the majority of a group of people are hostile we must assume all are hostile until such time as the power of the hostile group is broken. At such time investigations may be made to ascertain the guiltless. Any Jews who are not guilty of any treason will be protected by all resources of the American NAZI Party from the wrath of an aroused public.

Nature and National Socialism

One of the things that makes National Socialism so beautiful is its adherence to nature and nature's laws. Man has never conquered nature. At best he has learned a few of her secrets. Nature has been very generous to man, but she is also absolutely ruthless. If man presumes to tamper with the forces that caused him to be the supreme animal on this planet, it will certainly lead to but one fate, the disappearance of Homo Sapiens from this planet. Man must remember he is only an "intelligent" animal, and thus subject to natural laws. If man denies his animal nature we will say to him: Ignore your natural needs! Go without food and drink, for you say you are above natural laws. We shall see how long an individual can defy nature's laws.

Any society functions better when it adheres to natural laws. A society that abides by nature's laws can be referred to as an organic society. As in the human body the organic society is directed from a central point for the benefit of the whole. If the fingers refused to gather food because the stomach was the recipient of the direct benefits it would end in disaster. Likewise if the stomach withheld nourishment from the limbs the whole organism would perish. The brain, however, by having the function of a central command makes such bodily anarchy impossible. In human affairs also, a central director means natural and efficient operation.

Tactics

Many people criticize the use of that "terrible" Swastika. They say without it we will be much more successful. In actuality the Swastika is the secret of our success. The Swastika has an almost magical power, because so much blood has been shed for it. The main weapon of the enemy is press control. They control all the media of communication (this will be covered more fully under the heading *Methods of the Jew*). Their vicious "quarantine" treatment keeps the Right Wing from reaching the masses. Our tactics are so radical we can not be ignored. If they try to conceal our activities they reveal their ruthless methods to the public. Even more, however, the Swastika, having dealt so effectively with Jewish-Bolshevism in Germany, represents to the enemies of mankind nothing less than their deserved retribution. This drives our normally clever adversary into rash and foolish acts that play into our hands.

One of the great jokes of modern times is the way National Socialists utilize the institutions of liberalism to destroy said institutions. An example

is our "use" of the American Civil Liberties Union. The ACLU is forced to give us legal aid. If they do not help us it makes it apparent that they are only interested in defending the "liberties" of left wing groups. The sword with which we smite the ACLU is double-edged. Firstly they have to give legal aid to Nazis whom they hate, and secondly they lose much support. A good deal of their contributions come from Jews. It can be well imagined that Jews do not relish paying legal fees for Nazis. Therefore contributions to the ACLU drop.

We even utilize individual liberals. The Communists have conditioned these people to accept calmly the most radical activities. Now these conditioned liberals can not see why their Jew tutors try to deny Nazis their constitutional rights. These sincere liberals become quite a burden to their Marxist instructors.

Hatred Not a Handicap!

We are often asked, "How can such a "hated" movement as Nazism succeed?" Two thousand years ago the most hated doctrine was Christianity, and the most hated man was Jesus Christ! His symbol, the Cross, was even more hated — and his followers found it necessary to use a "fish" as the symbol of Christianity in lieu of the Cross, until it was "safe". The masses do not really hate us, but they are being misled by emotional Jew propaganda. Apathy is harder to overcome than hate. When a man hates you he has an interest. When he has no feeling it is difficult to arouse interest. Future generations will look upon Adolf Hitler as the White Saviour of the twentieth century, and the Fuhrerbunker in Berlin as the Alamo of the White Race.

Stormtrooper's Conduct

Many people erroneously believe that Nazis are brutes and bullies. A Stormtrooper must demonstrate to the public that a Nazi is courteous, manly, just, courageous, honest, etc. — but above all that he is DISCIPLINED and organized to PROTECT society, not destroy it. At the same time, a Nazi Stormtrooper must be utterly fearless and ruthless in prosecuting his enemies and carrying out his duties, by all legal means.

FBI and Police

Some of our wild-eyed Right Wing associates call us spies because of our friendly relations with FBI and police. We have found that the majority of FBI and law officers are honorable and honest. By co-operating with them we show our good faith and avoid persecution which stealth and "sneaking" ordinarily produce. Our co-operation with the FBI has gone so far that at one

point the American Nazi Party was instrumental in breaking one of Russia's biggest spy rings in this country. We have never found a documented case of the FBI mistreating innocent people. They only "bother" lawbreakers and sneaks.

One thing that causes much understanding of the FBI is their work in the south. The job of the FBI is to enforce Federal laws. Instead of attacking the FBI for doing its job, people should attempt to change the bad laws which the FBI must enforce.

Loyalty

The most important quality in a National Socialist is neither intelligence nor strength. The all-important quality is loyalty. Loyalty in the Nazi Party works both ways. Each man must give his loyalty to both his superiors above him, and his subordinates below him. Without this loyalty the Party could not function. Any disloyalty when found will be crushed ruthlessly. It is the duty of every Party Comrade to report any disloyal talk or acts immediately. When the Party attains power those men who have demonstrated their loyalty will receive their just reward. The early front fighters can be assured that their sacrifices will be remembered. It is essential to the safety of the leadership of the Party that they be surrounded by loyal old fighters. Only thusly can the leadership be protected from opportunists, adventurers, and usurpers. That is why the position of the old fighter is secure.

Phases of Our Power Struggle

The first phase of our struggle is to make ourselves known to the masses. In this first stage people hear of the organization, but hear mostly the lies and vilifications of the enemy. As the Master, Adolf Hitler, said: "It matters not what they say, so long as they concern themselves with us."

The second phase entails the dissemination of our program and the truth about the Party.

The third phase entails organizing the people who have been converted to our propaganda.

The fourth phase is the attainment of power through the votes of the newly won masses. A most important part of the fourth phase is the solution of the Negro problem. When we have solved the Negro question (covered earlier) the gratitude of the white masses will sweep us into power.

Mass Psychology

The mass is decidedly feminine. They admire strength and force. The masses say no, but what they mean is force me to say yes to what I really want but won't admit. The more aggressive and forceful a movement is the more easily it can seize the imagination of the masses.

The mass has little interest in logic or reason. That is why the Right Wing with all its documents and evidence leaves the mass unmoved. If one wishes to reach the masses, one must appeal to them on an emotional plane. Masses can only be influenced and led through emotions. At present the mass is manipulated by the Jews for evil purposes. We will direct the mass for good purposes.

Jew Methods

The most deadly weapon in the arsenal of international Jewry is the control of the media of communication and information. This is especially dangerous in a democracy. In a democracy the unthinking mass is vulnerable to the attacks of an organized minority, especially when this minority has control of the press, radio, TV and movies. The Jews have two ways of influencing news and information. The first method is outright ownership. Here the hand of the Jew is clearly seen, and therefore is the least desirable from their standpoint. The second method is diabolical and efficient. This method is "economic sanctions". The major advertising accounts are department stores and supermarkets. Here the Jews clearly dominate the field. By using their advertising as a "lever" the Jews have dropped the heavy curtain of censorship

on this land. No criticism of Jews is permitted. This censorship is especially vile, because so few realize its existence.

The Jewish Motivation

The hardest thing for the newly enlightened to understand is the "why" of the Jewish question. What motivates these people? An intelligent observer can easily see that if the Jew schemes for Marxism and race-mixing are brought to fruition, mankind, including the Jew will perish! The startling answer to the Jewish enigma is that the Jews are insane. The Jews as a race are *paranoic*. They clearly manifest the traits of paranoia, which are delusions of grandeur and delusions of persecution. The Jews call themselves "God's Chosen", and scream "anti-semite" at every shadow. This sick people must be stopped before they drag the world down with them.

Economic Policy

We have already dealt briefly with the economic question in question 2. It is, however, of such importance that we discuss it here at greater length. As we have said earlier we are socialists, but only in the sense that we believe in social justice and "the common interest above private greed". But we must emphatically state that we are in favor of private property and free enterprise.

Marxist Utopias simply do not work, and the dictatorship of the proletariat leads to the darkest and vilest tyranny, at the hands of which the workers are even more enslaved.

There is, however, a definite evil existent in capitalism. One of Hitler's greatest contributions to politics was his discovery that Capitalism and Marxism are but two of the heads of the Jewish Hydra. Both these doctrines are manipulated by Jews for the benefit of Jews. First the Jew mistreats his workers and creates a need for reform, then other Jews haul up the Red Banner and sound the call for revolution. The Jew trade unionists always keep their demands unreasonably high. In this way they delude the Proletariat into believing they are their champions. These high demands make it impossible for owners and workers to reconcile. When the Jew and speculators are removed, it is possible for free enterprise and social justice to co-exist.

A SHORT HISTORY OF THE PARTY

A sick Europe awaited Lance-Corporal Hitler when he returned from the front in 1918. The Red Banners were flying in the streets, and prostrate Europe was being raped by speculators and profiteers.

Adolf Hitler did not leave the army immediately. He was employed by military intelligence to watch political groups. One group he reported on was Anton Drexler's German Workers Party. This organization sent Hitler a postcard asking him to join. Hitler made a decision that was to alter the history of the world. He put aside his field gray tunic, and became member No. 7 in the German Workers Party. The master had begun his work.

Adolf Hitler became propaganda director of this little group and he changed the name to National Socialist German Workers Party. He adopted the old Aryan sign, the Swastika, as his emblem. Later he became the leader through popular acclaim.

Hitler went out and won his beloved people to his banner by his oratory and the greatness of his ideas. His truth broke the lies of the Red Front, as the fists of his Stormtroopers broke the red terror. The Reds had millions marching in the street before the advent of Hitler.

On the 9th of November, 1923 Hitler made a premature attempt to seize power. The attempt failed and Hitler received a prison sentence of several months. The mistake was to make a revolution against the power of the state instead of with the power of state. In Landsberg Prison Hitler wrote the immortal book "Mein Kampf".

After his release the Nazi Party grew steadily in strength. Every election gave them more seats in the Reichstag. The Nazi Party became the largest in Germany.

On January 30, 1933 President Hindenburg appointed Adolf Hitler Chancellor of Germany.

Hitler and his followers rooted out Communism in Germany and brought happiness and prosperity to this once sad land.

A great future lay ahead for Germany and Europe, but international Jewry had other plans. To destroy this great movement, international Jewry mobilized the entire world to crush National Socialist Germany.

The Jew-assembled forces defeated National Socialist Germany, but from the ashes of Europe, National Socialism has risen like the eternal Phoenix that will never die.

At the present time all over the world National Socialism is undergoing a renaissance. In 1958 there arose in the USA, independent of any foreign influence, a virile National Socialist movement. The American NAZI Party, under the dynamic leadership of Commander Lincoln Rockwell, has become a major political force in the USA, and the vanguard of National Socialist groups throughout the world.

You have now completed our short elementary course on National Socialism. For a more complete understanding of National Socialism we urge the student to study *Mein Kampf,* especially Book II.

Applicants for membership are requested to study this booklet carefully as they will be tested on its contents before being accepted for membership.
